Case Names

Case Name Information
A case name is the unique identifier that will be assigned to each individual case. All data collected from the CMAT tool references the case name.

To add a new case name, click the Add a Case button. If you need further assistance, click the Help button for instructions.

YOU MUST ADD THE CASE NAME BEFORE ADDRESS STUDENTS, EDUCATIONS, FOLLOW UPS, LABS/PROCEDURES, MEDICATIONS, REFERRALS, AND ABSTRACTS

List of entered Cases

Case Name	Exam Date	Edit	Delete
Adolescent anorexia	04/29/04	Edit	Delete
Abuse Foot	06/10/04	Edit	Delete
Colorectomy	04/29/04	Edit	Delete
intracranial hemorrhage	04/27/04	Edit	Delete
Gall Stones	04/10/04	Edit	Delete
